

Manufacturer's Declaration

31.12.2025

This declaration is to certify that products manufactured by Meka®:

Cable ladders	KSF80 HDG, KS80 SP 2.0 HDG, KS80 HDG, KS100 HDG, KS60 HDG and KS20 HDG
Lighting suspension rails	MEK 70 HDG
Wire mesh trays	WMT HDG
Supports and accessories (Appendix 1)	

are manufactured out of steel. The products are galvanized after manufacturing by using an immersion galvanizing method. According to EN ISO 1461 standard the local coating thicknesses (minimum) are as follows:

55 μm , when the product is not centrifuged and steel thickness is >3 mm to ≤ 6 mm
45 μm , when the product is not centrifuged and steel thickness is ≥ 1.5 mm to ≤ 3 mm
35 μm , when the product is not centrifuged and steel thickness is < 1.5 mm
20 μm , when the product is centrifuged and steel diameter is ≤ 6 mm
45 μm , when the product is centrifuged and steel thickness is ≥ 3 mm
35 μm , when the product is centrifuged and steel thickness is < 3 mm

Above mentioned products are suitable to install in atmospheric-corrosivity categories C1, C2, C3 and C4 according to EN ISO 12944-2 standard.

Loading capacities of Meka products are tested and confirmed in an impartial expert organization VTT Technical Research Centre of Finland, Tampere University of Applied Sciences and in Meka Pro owned testing laboratory according to the test type III in EN 61537 standard.

Electrical conductivity of products is tested in SGS Fimko Oy or Meka Pro owned testing laboratory according to EN 61537 standard. The calculated impedances shall not exceed 50 m Ω across the joint and 50 m Ω m⁻¹ without the joint.

Fire safety of selected group of these products is tested according to EN 1363-1 and DIN 4102-12 as applicable. More information about used configuration and installation instructions on website: www.meka.eu.

Information about installation recommendations and loading test summary are available in Meka® catalogues and on web-site: www.meka.eu

To obtain more detailed data please contact Meka Pro Oy's technical support.
